Eclipses 1922

There will be but two eclipses in 1922, the least number possible, and as always the case in such an instance, both must be of the Sun. They are as follows:

I. Annular, Mch, 28, visible in the U. S. only in Peninsular Florida and exceedingly small, near sunrise. The annular belt runs through the equatorial regions of S. America and Africa, crosses the Suez Canal, terminating at the Persian Gulf.

II. Total Sept. 20-21, invisible in the U. S. The belt of totality runs from the east coast of Equatorial Africa across the Indian Ocean, crosses Australia and terminates near New Zealand.

Foretelling the Weather

A RISING BAROMETER.

A rapid rise indicates unsettled weather.

A gradual rise indicates settled weather.

A rise with dry air and cold increasing in summer indicates wind from the northward; and if rain has fallen, better weather may be expected.

A rise with moist air and a low temperature indicates wind and rain from the northward.

A rise with southerly winds indicates fine weather.

A STEADY BAROMETER.

With dry air and seasonable temperature indicates a continuance of very fine weather.

A FALLING BAROMETER.

A rapid fall indicates stormy weather.

A rapid fall with westerly wind indicates stormy weather from the northward.

A fall with a northerly wind indicates storm, with rain and hail in summer, and snow in Winter.

A fall with increased moisture in the air, and heat increasing, indicates wind and rain from the southward.

A fall with dry air and cold increasing in winter indicates snow.

A fall after very calm and warm weather indicates rain with squally weather.

The Metric System

METRIC WEIGHTS.—10 milligrams make 1 centigram, 10 centigrams make 1 decigram, 10 decigrams make 1 gram, 10 grams make 1 dekagram, 10 dekagrams make 1 hektogram, 10 hektograms make 1 kilogram, 1000 kilograms make 1 metric ton.

METRIC MEASURES.—(One milliliter equals cubic centimeter.) 10 milliliters make 1 centiliter, 10 centiliters make 1 deciliter, 10 deciliters make 1 liter, 10 liters make 1 dekaliter, 10 dekaliters make 1 hektoliter, 10 hektoliters make 1 kiloliter.

METRIC LENGTHS.—10 millimeters make 1 centimeter, 10 centimeters make 1 decimeter, 10 decimeters make 1 meter, 10 meters make 1 dekameter, 10 dekameters make 1 hektometer, 10 hektometers make 1 kilometer.

1 acre equals .4047 hectar; 1 bushel, 35.24 liters; 1 centimeter, .3937 inch; 1 cubic centimeter, .0610 cubic inch; 1 cubic foot, .0283 cubic meter; 1 cubic inch, 16.39 cubic cent; 1 cubic meter, 35.32 cubic feet; 1 cubic meter, 1.358 cubic yards; 1 cubic yard, .7645 cubic meter; 1 foot, 30.48 centimeters; 1 gallon, 3.785 liters; 1 ounce (Troy), 31.1035 grams; 1 gram, 15.43 grains; 1 hectar, 2.471 acres; 1 inch, 25.40 millimeters; 1 kilogram, 2.2046 pounds; 1 kilometer, .6214 mile; 1 liter, .908 quart (dry); 1 liter, 1.057 quart (liquid); 1 meter, 3.281 feet; 1 mile, 1.609 kilometers; 1 millimeter, .0394 inch; 1 ounce (avd.), 28.35 grams; 1 ounce (Troy), 31.1035 grams; 1 peck, 8.809 liters; 1 pint, .473 liter; 1 pound, 453.6 kilograms; 1 quart (dry), 1.103 liters; 1 quart (liquid), .9464 liter; 1 sq. centimeter, .155 sq. inch; 1 sq. foot, .0929 sq. meter; 1 sq. inch, 6.452 sq. cent; 1 sq. meter, 1.196 sq. yards; 1 sq. meter, 10.76 sq. feet; 1 sq. yard, .836 sq. meter; 1 ton (2000 lbs.), .9072 metric ton; 1 ton (2240 lbs.), 1.017 metric ton; 1 ton (metric), 1.102 tons (2000 lbs.); 1 yard, .9144 meter.

Poisons and Antidotes

Send for a physician. Induce vomiting, by tickling throat with feather or finger. Drink hot water or strong mustard and water. Swallow sweet oil or whites of eggs. *Acids are antidotes for alkalies, and vice versa.*

ACIDS, Mineral.—Chalk, magnesia (plaster off wall in emergency), solution carbonate of soda, emollient drinks, fixed oils. *Carbolic.*—Any soluble sulphate, such as magnesia. *Hydrocyanic.*—Fresh air and artificial respiration, with cold effusion. Ammonia by inhalation and intravenously in vein of leg.

ACONITE.—Emetics, stimulants, external and internal; keep up external heat, keep flat on back.

ANTIMONY TART.—Vegetable acids, such as tannic acid, catechu.

ARSENIC.—Freshly precipitated hydrated sesquioxide of iron made by adding magnesia to any iron solution.

BELLADONNA.—Emetics—mustard flour in water; give physostigma or pilocarpine; cold to head.

CHLORINE WATER.—Albumen, white of egg, milk, flour.

CHLOROFORM.—Fresh air, artificial respiration (inclining head down, pull tongue forward), brandy and ammonia intravenously in leg, the **HYPODERMIC** injection of 15 m. tincture of digitalis and 1-60 of a grain of atropine.

COLCHICUM.—Emetics, followed by demulcent drinks. If coma be present, brandy, ammonia, coffee. Opium in large dose. Keep up external heat.

CONIUM.—Emetics, followed by stimulants external and internal.

Poisons and Antidotes

CORROSIVE SUBLIMATE.—Albumen, white of egg (4 gr. sublimate require white of one egg), flour, milk. Equal parts of lime water and milk. Emetics, or evacuate stomach by pump.

COPPER SULPH.—Yellow prussiate of potash or soap.

CROTON OIL.—Emetics; wash out stomach, followed by mucilaginous fluids containing opium.

DIGITALIS.—Recumbent posture after emetics. Emetics and opium; give tincture aconite.

IODINE.—Emetics and demulcent drinks, starch or flour diffused in water, opium and external heat.

LEAD SALTS.—Any soluble sulphate, either magnesia or soda, succeeded by emetics, and afterwards by opium and milk.

LOBELLA.—Stimulants externally and internally; external heat.

MORPHINE.—Same as opium.

OPIUM.—Atropine hypodermically till respirations number 8 per minute. Stomach pump, stimulants, external and internal, brandy and coffee, cold affusion, ammonia to nostrils, galvanic shocks, compelling to move about, artificial respiration, electric brush. Permanganate of potash.

OXALIC ACID.—Lime, not potash or soda.

PHOSPHORUS.—Sulphate of copper in emetic dose as chemical antidote. No oils. Emetics and purgatives.

POTASH AND SODA SALTS.—Dilute acetic acid, citric acid, lemon juice, fixed oils, demulcents, vinegar.

SILVER NITRATE.—Solution of common salt and demulcent drinks. Emetics.

Help in Case of Accidents

SUFFOCATION FROM INHALING ILLUMINATING GAS.—Get into the fresh air as soon as possible and lie down. Keep warm. Take ammonia—twenty drops to a tumbler of water, at frequent intervals; also, two to four drops tincture of nux vomica every hour or two for five or six hours.

HÆMORRHAGE.—The usual treatment is rest in the recumbent position; small pieces of ice should be freely swallowed, and the application of ice wrapped in a towel or in an ice-bag, or snow, cold water, etc., over the stomach; hot applications may be applied to the extremities.

MAD DOG OR SNAKE-BITE.—Tie the cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife. Give stimulants, as whisky, brandy, etc.

FIRE IN ONE'S CLOTHING.—*Don't run*—especially not downstairs or out-of-doors. Roll on carpet, or wrap in woolen rug or blanket. Keep the head down, so as not to inhale flame.

FIRE FROM KEROSENE.—*Don't use water*, it will spread the flames. Dirt, sand, or flour is the best extinguisher, or smother with woolen rug, table-cloth, or carpet.

CINDERS IN THE EYE.—Roll soft paper up like a lamp-lighter, and wet the tip to remove, or use a medicine dropper to draw it out. Rub the other eye.

FAINTING.—Place flat on back; allow fresh air, and sprinkle with water. Place head lower than rest of body.

*** STINGS OF VENOMOUS INSECTS, ETC.**—Apply weak ammonia, oil, salt water, or iodine.

LIGHTNING.—Dash cold water over a person

Help in Case of Accidents

DROWNING.—1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach, and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils, and pressing the "Adam's apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. **DON'T GIVE UP!** People have been saved after **HOURS** of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give **WARM** drinks, or spirits in teaspoonfuls, fresh air, and quiet.

BURNS AND SCALDS.—Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive oil or linseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil of patient, vigorous effort. Shock, which is always present in severe burns, requires the administration of stimulants. Pain is more constant and intense in burns than in any other form of injury, and requires sedatives.

FIRE IN A BUILDING.—Crawl on the floor. The clearest air is the lowest in the room. Cover head with woolen wrap, wet if possible.

Weights and Measures

MEASURES OF WEIGHT.—*Avoirdupois*: 1 pound equals 7000 grain: 16 drams, 1 ounce; 16 ounces, 1 pound; 112 pounds, 1 hundredweight; 20 hundredweights, 1 ton. *Troy*: 1 pound equals 5760 grains; 24 grains, 1 pennyweight; 20 pennyweights, 1 ounce; 12 ounces, 1 pound. *Apothecaries*: 1 pound equals 5760 grains; 20 grains, 1 scruple; 3 scruples, 1 dram; 8 drams, 1 ounce; 12 ounces, 1 pound. ●

MEASURES OF LENGTH. *Customary*: 12 inches equal 1 foot; 16½ feet, 1 rod; 40 rods, 1 furlong; 8 furlongs, 1 statute mile; 1 statute mile, 5280 feet or 1760 yards; 1 marine league, 3 nautical miles; 1 fathom, 6 feet; 1 nautical mile equals 6080.2 feet.

● **SURFACE OR SQUARE MEASURE.**—*Customary*: 144 square inches equal 1 square foot; 9 square feet, 1 square yard; 30.25 square yards, 1 square rod; 40 square rods, 1 square rood; 4 square roods, 1 acre; 640 acres, 1 square mile; 1 acre equals 208.7 feet square.

SOLID OR CUBIC MEASURE.—*Customary*: 1728 cubic inches equal 1 cubic foot; 27 cubic feet, 1 cubic yard; 40 cubic feet of round timber, 1 ton; 50 cubic feet of hewn timber, 1 ton; 128 cubic feet of wood (4 feet by 4 feet by 8 feet), 1 cord; 24.75 cubic feet of stone, 1 perch—usually 16½ feet by 1½ feet by 1 foot, but varies greatly. ●

LIQUID MEASURE.—English gallon equals 277.274 cubic inches, or 1.20032 U. S. gallons; 4 gills, 1 pint; 2 pints, 1 quart; 4 quarts, 1 gallon.

DRY MEASURE.—1 bushel equals 2150.42 cubic inches; 2 pints, 1 quart; 4 quarts, 1 gallon; 2 gallons, 1 peck; 4 pecks, 1 bushel.

Business Law

Ignorance of the law excuses no one.

Money receipt not always conclusive.

The acts of one partner bind all the rest.

A contract made with a minor is void in law.

The law compels no one to do impossibilities.

Notes bear interest only when so stated on them.

Signatures made with a lead pencil are good in law.

Contracts that are made on Sunday cannot be enforced.

Principals can be held responsible for the acts of their agents.

No consideration is sufficient in law if it be illegal in its nature.

If the time of payment of a note is not inserted it is held payable on demand.

A note obtained by fraud, or from an intoxicated person, cannot be collected.

Each individual in a partnership is responsible for the whole amount of the debts of the firm, except in cases of special partnership.

If a note is lost or stolen it does not release the maker; if the consideration for which it was given and the amount can be proven, he must pay it.

"Value received" is usually written in a note, and it should be, but is not necessary. If it is not written it is presumed by the law, or may be supplied by proof.

Rules for Com- puting Interest

The following will be found to be excellent rules for finding the interest on any principal for any number of days. When the principal contains cents, point off four places from the right of the result to express the interest in dollars and cents. When the principal contains dollars only, point off two places.

Four per Cent.—Multiply the principal by number of days to run, and divide by 90.

Five per Cent.—Multiply by number of days, and divide by 72.

Six per Cent.—Multiply by number of days, and divide by 60.

Seven per Cent.—Multiply by number of days, and divide by 52.

Eight per Cent.—Multiply by number of days, and divide by 45.

Nine per Cent.—Multiply by number of days, and divide by 40.

Ten per Cent.—Multiply by number of days, and divide by 36.

Twelve per Cent.—Multiply by number of days, and divide by 30.

Fifteen per Cent.—Multiply by number of days, and divide by 24.

Eighteen per Cent.—Multiply by number of days, and divide by 20.

Twenty per Cent.—Multiply by number of days, and divide by 18.

Twenty-four per Cent.—Multiply by number of days, and divide by 15.

MISS MARDEN ENGAGED.

Daughter of Francis Skiddy Marden
to Wed Fred B. Lund Jr.

Francis Skiddy Marden of 101 East
Seventy-eighth Street announces the en-
gagement of his daughter by his first
wife, Miss Ruth R. Marden, to Fred B.
Lund Jr., a son of Dr. Fred B. Lund
and Mrs. Lund of 529 Beacon Street,
Boston. Mr. Lund is a brother of Dr.
Charles C. Lund and of E. G. Lund.

Miss Marden's mother was Miss Fannie
L. Clark. She died about six years ago.
Miss Alice C. Marden is her sister.

"I didnt dream there were so many big fish to be caught in these waters until I went on a three-hour trip Saturday with three others, declared L. V. Bogert of New York, who is spending the winter at the Gralynn Hotel. "We caught over a thousand pounds of fish and I was glad when they stopped biting. There were so many of them and they had been so eager to bite that we got all tired out pulling them in so fast.

What is said by fishermen here to be the biggest days haul made so far this season was thus referred to by Mr. Bogert. He made the trip with Andrew R. Smith of Camden, N. J.; Henry S. Duncan, proprietor of the Halcyon Hotel, and J. M. Cosgrove, a guest at the Halcyon. Their catch included a half a ton of amberjack, barracuds and grouper, caught in Angel Fish Creek, where they went on Mr. Duncans yacht, the Halcyon.

"It was a wonderful trip, concluded Mr. Bogert. "I dont know when I've enjoyed anything more."

Another interesting visitor at the Gralynn Hotel is Miss Marian Holmes, who has arrived with her parents, Mr. and Mrs. D. G. Holmes of East Orange, N. J., for the season. Miss Holmes is a tennis champion, and it is said that one of her trunks holds nothing but medals she has won by the fatal racquet she wields.

J. W. Reynolds, who until this year was a winter visitor in Miami, has just come here from Nassau, where he is spending this season. He is stopping at the Gralynn. Mr. Reynolds declared that after all there is no place like Miami and that he may come here to stay.

Mr. and Mrs. A. E. Kobletz and Mr. and Mrs. Harry Blalocky of Cleveland are visitors at the Gralynn now, as are Mr. and Mrs. F. Kniffen of Wilmington, Ill., Miss Winifred Marr of Philadelphia, Mr. and Mrs. Frank Peck, Mr. and Mrs. W. R. Hughes of New York and Mr. and Mrs. D. L. Short of Philadelphia.

A party of 15 from Palm Beach took luncheon at the Gralynn Tuesday.

Mr. and Mrs. Ewell Palmer of Brooklyn are interesting arrivals at the Gralynn Hotel today.

Prof. Kendall, Divorced by Wife In Paris, to Wed Christine Herter

Professor William Sergeant Kendall, former dean of the School of Fine Arts of Yale University, whose wife recently obtained a divorce in Paris, has decided to embark on a second venture in matrimony.

He and Miss Christine Herter, who was a student at the Yale School of Fine Arts in 1915 and won the National Arts Club prize last year at the exhibition of the National Association of Women Painters and Sculptors, obtained a marriage license Tuesday.

One report had it that they were married yesterday. Neither at 30 East Sixty-eighth Street, where Miss Herter had an apartment, nor at 109 Waverley Place, where she has been living more recently, could this report be confirmed.

All information was refused at the home of her sister, Mrs. Henry Drysdale Dakin, in Scarborough-on-Hudson, where the ceremony was said to have

taken place. Friends of Miss Herter and Professor Kendall were careful to explain that they believed she had gone to the country and that Professor Kendall had gone to Virginia with his daughter, Beatrice, to do some painting.

Professor Kendall is fifty-three years old. Miss Herter is thirty-one. Elizabeth Stickney Kendall, who obtained a divorce from Professor Kendall July 24 in France, is about his age.

Miss Herter is the daughter of Christian D. Herter. Her paintings have been exhibited at the National Academy of Design and in other galleries in this city and in New Haven, Conn.

Professor Kendall is a member of the New York Water Color Club, the Century Club and several others. He is well known in the art world. His son, Allison, fourteen years old, is with his mother in France.

W. M. Wood Jr. and Comrade Die When Speeding Auto Hits Pole

Special Dispatch to The Tribune

READING, Mass., Aug. 15.—William M. Wood jr., son of William M. Wood, president of the American Woolen Company, and Major Alexander Gardner, of North Andover, were killed instantly this afternoon at "Dead Man's Curve," on the Reading-Andover Boulevard, Reading, when their sedan, which was racing another car at high speed, sideswiped two smaller machines and crashed into a telephone pole.

The other racing car, which the police say is owned by Arthur H. Earl, of Brookline, did not stop and the police are searching for the driver.

Paul Rice, of Andover, the third occupant of the machine driven by Wood, escaped with a broken rib when he was thrown twenty feet into a swamp. Samuel Ramsey, of Medford, and Edward Brackett, of Wakefield, occupants of one of the smaller cars overturned, were taken to the Winchester Hospital, the former suffering from a broken leg and a fractured skull.

Wood's wife, who is passing the summer at Kennebunkport, Me., notified of the accident by telephone, char-

tered a seaplane and landed on the Merrimac River at Andover early tonight. She was taken to the Wood home by members of the Andover Fire Department.

The first collision occurred about a mile from Reading Center, when Wood's car was slightly in the lead. As the machines raced along a small touring car, going in the same direction, loomed up. Wood attempted to pass, but cut in too sharply, side-swiping and overturning the smaller car. Two men were thrown out but escaped with bruises. Only twenty-five feet beyond the Wood car sideswiped the other small touring auto, demolishing it.

With the second collision Wood apparently lost control of his car, and after careening over the road it crashed into a telephone pole, 15 inches in diameter, splintering it. The steering wheel was driven into Wood's body, puncturing his chest. Gardner was crushed between the pole and the wreckage of the machine. Both were dead when aid arrived.

The top of the sedan was ripped off and Rice, who was sitting in the rear seat, was flung through the opening. The machine, a \$15,000 imported affair, was wrecked.
